## Hagerman Receives MICCS Certification

INDIANAPOLIS – The Hagerman Group is pleased to announce its recent achievement of reaching MICCS (Metro Indianapolis Coalition of Construction Safety, Inc.) Certification status.

By awarding MICCS Certification, the MICCS board recognizes that The Hagerman Group consistently demonstrates a commitment to worker safety, and has had considerable success in achieving it. According to the MICCS website, "The great majority [of construction firms] 'by design' cannot reasonably be expected to attain the very high standards required to be MICCS Certified. The honor of being MICCS Certified should be reserved only for those companies whose safety record and program are truly extraordinary. "

The Metro Indianapolis Coalition for Construction Safety, Inc. (MICCS) is a nonprofit organization dedicated to achieving zero injury on construction job sites in Central Indiana. Its members include construction companies, users of construction services (owners), design professionals and construction-affiliated organizations and companies.

The Hagerman Group, comprised of Hagerman Construction Corp., Hagerman Inc. and GDH, LLC, is a general contractor and construction manager with locations in Fort Wayne and Indianapolis.
